Learn About Transgender Employment Experiences with Kyla Bender-Baird

November 11th @ 6pm Charis Bookstore

Using personal interviews, legal case histories, and transgender theory, Transgender Employment Experiences combines policy analysis with the lived experiences of twenty transgender-identified employees, showing how worker protections that should exist under the Civil Rights Act are instead systematically undermined in the case of many transgender employees. Rather than focusing solely on negative experiences, however, Kyla Bender-Baird also highlights the positive experiences her respondents had coming out at work, illustrating examples of best practices in response to transitioning. Bender-Baird covers many forms of discrimination that transgender workers face, such as harassment, gender-based dress codes, income-related inequities, bathroom policies, and background checks. Drawing from this analysis, she argues for protections for gender expression in policy decisions, legislative efforts, and for a multipronged approach to workplace discrimination.

Research Opportunities

LGBT Student Leaders Patterns of Accessing Help & Support

If you identify as a leader in a campus Lesbian, Gay, Bisexual, Transgender student organization, Gay Straight Alliance, or other similar organization, you are invited to participate in a study that seeks to better understand how and when LGBT student leaders on college campuses access support. We hope that through gaining a better understanding of how LGBT student leaders access support, campuses become more hospitable and welcoming environments for LGBT students. If you decide to participate, we will ask you to complete a brief fifteen (15) minute survey on your experiences as a student leader. At the end of the survey you may volunteer to participate in a follow-up interview or in a local focus group. To complete the survey, click [here](#).

Relationship Between Gay Community Involvement and Well-Being

Study participation is anticipated to take between 10-20 minutes using our online survey. Your responses will be entirely anonymous and you have the option to exit the survey at any time. In order to participate, you must identify as a gay or bisexual male who is over the age of 18. Participants have the opportunity to win one of six \$25 Amazon.com gift cards.

Access the survey [here](#).

A Study of Lesbians' Experience with Healthcare Professionals

This online study investigates lesbians' experiences with healthcare professionals, both the good and the bad. Participants can enter their email address for a chance to win 1 of 5 \$100 cash prizes - the emails are collected separately from the survey responses to prevent identifiability. Eligible participants are self-identified lesbians who live in Canada and are 16 years or older OR who live in the USA and are 18 years or older. Access the study at <http://www.uwindsor.ca/lesbianhealthstudy>. For more information, contact stpier4@uwindsor.ca or call 1-519-253-3000 ext. 4703.

Study on the Psychological Impact of the Threat of Identity Disclosure in the Workplace

Participants are needed for an online study of cognitive performance and workplace behavior. This study is being conducted through the Department of Psychology at Arizona State University. You will be asked to fill out an anonymous online questionnaire about behaviors in the workplace, which should take approximately 20 minutes to complete. Anyone interested in participating can access the survey by following the link below:

<https://www.surveymonkey.com/s/BFJLSLR>

If you have any questions, please contact us at craig.nagoshi@asu.edu or gabrielle@asu.edu.

Examining the Academic and Social Experiences of Gay Male Undergraduates of Color

The purpose of this qualitative study is to understand the academic and social "lived" experiences of male undergraduates of color who identify as gay or bisexual. Using a semi-structured interview protocol, we elicit information about students' pre-college personal histories, decisions about disclosing their sexual identity to others, challenges and achievements they've experienced since entering college. Cues focus on issues of identity, socialization, environments, and interactions with others. Access the survey [here](#). Contact strayhorn.3@osu.edu or tillman-kelly.1@osu.edu for more information.

Educational Experiences of LGBTQ Youth

Two openly gay researchers from the University of West Georgia are seeking LGBTQ individuals willing to share their experiences in educational settings (IRB #12_0117). The purpose of the study is to identify ways to enhance supports for LGBTQ students in secondary and post-secondary education by honoring the voices of our participants. We are hoping to recruit participants that represent the full range of diversity that exists in the LGBTQ community, including individuals who represent non-dominant race, ethnic, gender, socioeconomic, religious, political, and ability identities. For more information or to indicate your willingness to participate in an interview, please email Dr. James DeVita at jdevita@westga.edu.
