

FRONTIERS IN NEUROSCIENCE

Spring 2009, Fridays at 12:00 pm
Whitehead Research Bldg Auditorium

Sponsored by the Graduate Program in Neuroscience - www.emory.edu/NEUROSCIENCE

January 23

Robert Gross, M.D, Ph.D.

Department of Neurosurgery, Emory University School of Medicine

Generating and Regenerating the Nigrostriatal Pathway: From Semaphorins to C3 Transferase

January 30

Xiao-Jiang Li, Ph.D.

Department of Human Genetics, Emory University School of Medicine

Huntington Disease Pathogenesis

February 6

Gregory S. Berns, M.D, Ph.D.

Distinguished Chair of Neuroeconomics, Director of the Center for Neuropolicy, Dept. of Psychiatry, Emory University

Neuroeconomics: Past, Present, Future

February 13

Rebecca Rosen & Zoe Donaldson

Predocorial Fellows, Graduate Program in Neuroscience, Emory University

Why Don't Monkeys get Alzheimer's Disease? and

Developing Novel Genetic Tools for Investigating the Genetic Basis of Social Behavior

February 20

Ping Chen, Ph.D.

Department of Cell Biology, Emory University School of Medicine

Line up to Listen: Planar Cell Polarity Regulation in the Mammalian Auditory Sensory Organ

February 27

Kim Maguschak & John Rolston

Predocorial Fellows, Graduate Program in Neuroscience, Emory University

Strengthening the Bonds of Memory, and Distributed Microstimulation and Epilepsy

March 6

Regina Sullivan, Ph.D.

Presidential Professor of Zoology, University of Oklahoma

Neurobiology of Infant Attachment and Development of Fear

March 13

Karen S. Wilcox, Ph.D.

Anticonvulsant Drug Development Program, Department of Pharmacology & Toxicology, University of Utah

Expanding Horizons in the Anticonvulsant Drug Development Program

March 20

James K. Rowlett, Ph.D.

Harvard Medical School & New England Primate Research Center

Valium Revisited: Therapeutic Potential of GABA_A Receptor Modulators

March 27

Paul Vezina, Ph.D.

Department of Pharmacology, Emory University School of Medicine

Dopamine-glutamate Interactions and Amphetamine Sensitization

April 3

Randy Hall, Ph.D.

Department of Pharmacology, Emory University School of Medicine

Orphan G Protein-coupled Receptors Associated with Inherited Neurological Disorders

Held in School of Medicine Auditorium #130

April 10

Mar Sanchez, Ph.D.

Department of Psychiatry & Yerkes National Research Center, Emory University School of Medicine

The Role of Maternal Care on Primate Development

April 17

Mahlong DeLong Symposium

Basal Ganglia: Function, Movement Disorders and Treatment Options

Guy McKhann, MD; Peter Strick, PhD; Hagai Bergman, MD, PhD; Ann Graybiel, PhD; Jose Obeso, MD; Jerrold Vitek, MD, PhD; Anne Young, MD, PhD; Jeff Conn, PhD; Andres Lozano, MD, PhD; Anthony Lang, MD

Held in School of Medicine Auditorium #110

April 24

Michael Moskowitz, M.D.

Neuroscience Center at Massachusetts General Hospital, Harvard University School of Medicine

Migraines, Mice, Mechanisms & More!
