Academic Profile

EMORY

A PROFILE
OF THE SCHOOLS
AND ACADEMIC
RESOURCES

DECEMBER 2006

The Office of Institutional Research prepared this brief profile to provide academic and administrative leaders frequently needed information about the university and its schools, libraries, and information technology division. It is designed to be a practical tool, and not a piece for public display.

If you would like an electronic file of this information, contact me at dteodor@emory.edu. I also welcome suggestions to enhance its usefulness.

EMORY UNIVERSITY

Established 1836

Total Living Alumni 96,665 (includes School of Dentistry alumni)

Historical Dates

December 10, 1836 - Emory College is established at Oxford and named for John Emory.

1841 – Emory’s first three graduates receive degrees.

1919 – Emory College moves from Oxford to Atlanta.

1953 – Emory College establishes an official policy permitting women to enroll.

1962 – Emory wins lawsuit allowing it to admit African-Americans while maintaining tax exempt status.

1971 – The first African-American joins the Emory faculty.

1979 – George and Robert Woodruff announce the transfer to Emory of the \$105 million Emily and Ernest Woodruff fund, a portion of which is used to establish the Woodruff Professorships to attract distinguished scholars to the faculty.

1990 – The Rollins School of Public Health opens its doors. Emory launches a 5-year capital campaign, with a goal of \$400 million and raises \$420 million.

1995 – Funded research passes \$100 million.

1996 – Campus master plan adopted to guide Emory’s physical development for the next half-century. The Distinguished Faculty Lectureship is established.

1998 – Emory acquires the 42-acre property previously known as the Georgia Mental Health Institute.

2002 – Clairmont campus opens and funded research reaches \$277 million.

2003 – James Wagner is appointed nineteenth president of Emory.

EMORY COLLEGE

Established 1836

Total Living Alumni 37,774

Historical Dates

1841 – Emory College’s first graduates receive degrees. Emory becomes the home of a “Temple” of the Mystic Seven, reputedly the first chapter of a national fraternity to be established in the South.

1861 – Board of Trustees vote to close Emory College until peace returns to the nation.

1866 – Emory reopens with twenty students and three professors.

1884 – Isaac Stiles Hopkins, ninth president of Emory College, founds technical department that later grows into Georgia Institute of Technology.

1905 – First Rhodes Scholar awarded to an Emory student (Thomas Henry Wade).

1919 – Emory College moves from Oxford to Atlanta.

1929 – Phi Beta Kappa establishes a chapter at Emory.

1953 – Emory College establishes an official policy permitting women to enroll.

1971 – The first African-American joins Emory faculty.

1977 – Goodrich C. White Hall opens.

1989 – Women’s Studies is established.

1997 – Emory College establishes a Center for Teaching and Curriculum to provide support for teaching.

1998 – The Distinguished Research Award is created to recognize singular accomplishments in faculty research.

2003 – Schwartz Center for Performing Arts opens.

Programs Offered

Emory College offers 53 majors, 15 joint concentrations, 1 co-major, 54 minors and has 10 interdepartmental programs. The majors with the largest enrollment are Economics, Psychology, and Political Science.

GRADUATE SCHOOL OF ARTS AND SCIENCES

Established 1919

Total Living Alumni 10,368

Historical Dates

1948 – The first PhD awarded at Emory goes to Thomas P. Johnston in chemistry.

1952 – The Graduate Institute of the Liberal Arts is established, giving high profile to interdisciplinary studies at Emory.

1956 – The Graduate Division of Religion is established in collaboration with the School of Theology.

1962 – Emory's first African-American student enrolls in the Graduate School.

1989 – The Graduate Division of Biological and Biomedical Sciences (GDBBS) enrolls its first class of students.

1991 – The Teaching Assistant Training and Teaching Opportunity (TATTO) program is launched to provide thorough teacher training to every doctoral student.

2001 – A joint PhD program with Georgia Tech in Biomedical Engineering is established.

2002 – The PhD program in Business enrolls its first students.

Programs Offered

The Graduate School of Arts and Sciences offers 4 Master's degree programs and 27 individual doctoral programs as well as joint PhD programs in Biomedical Sciences, Biomedical Engineering, Law, and Religion.

All doctoral students participate in the Teaching Assistant Training and Teaching Opportunity (TATTO) program, which provides a gradual introduction to college-level teaching. TATTO embodies the University’s commitment to excellence in teaching.

The Graduate School’s English as a Second Language program provides language assessment and support classes to international students admitted to the Graduate School.

The Graduate School supports a number of interdisciplinary PhD programs, several of which rank among the top-rated interdisciplinary programs in the nation. Among these are the Graduate Institute of the Liberal Arts, the Graduate Division of Religion, and the program in Women’s Studies.

The Graduate School, in collaboration with schools and units across Emory’s campus and with area institutes, offers to its graduate students a number of unique opportunities that promote cross-disciplinary training, interdisciplinary research and public scholarship. These programs bring graduate students from all disciplines in contact with each other and with faculty from the humanities, social sciences, and sciences to work with health care professionals, community leaders and researchers and scholars from across the country. Included among these programs are the Center for Health, Culture and Society graduate fellowship program, the University and Community Partnerships fellowship program, and the Center for the Study of Public Scholarship, and the Center for Humanistic Inquiry.

The areas of study with the largest enrollment are the Graduate Division of Biological and Biomedical Sciences, the Graduate Division of Religion, and Chemistry.

OXFORD COLLEGE

Established 1836

Total Living Alumni 10,239

Historical Dates

1915 – Oxford Academy, a preparatory school, is established on the original campus of Emory College.

1929 – Two-year program of college courses is offered at Oxford campus.

1947 – Emory at Oxford receives accreditation as region's first four-year junior college.

1964 – The name "Emory at Oxford" is officially replaced with current designation: "Oxford College of Emory University."

1967 – First African-American student enrolls.

1972 – Associate of Arts degree first awarded.

1972 – The Methodist Church designates Oxford, Georgia, including the campus of Oxford College, a historic landmark.

1974 – Phi Theta Kappa academic honorary society is installed at Oxford.

1975 – Oxford faculty permitted to achieve the rank of full professor.

1988 – Leadership Oxford, innovative leadership development program for rising sophomores, is created.

1990 – The 47-acre Oxhouse Science Center is established.

1995 – Renovation of Oxford's Fleming L. Jolley Residential Center is completed.

1999 – First woman dean appointed at Oxford.

2000 – First Candler Professor appointed at Oxford.

2001 – Few and Williams Halls are renovated and the Tarbutton Center for the Performing Arts is completed.

2003 – Oxford is designated a national cluster leader for the Carnegie Academy for the Scholarship of Teaching and Learning (CASTL) Campus Program.

2005 – Strategic Plan titled *Distinctive and Distinguishing – A Strategic Plan for Oxford College and Its Role within Emory University* is completed.

Programs Offered

Oxford College provides approximately 20 percent of Emory University’s baccalaureate students a *liberal arts intensive* education during their first two years. After completing the Oxford program, most students continue their studies in Emory College on the Atlanta campus, or apply for admission to Emory’s Goizueta School of Business or Woodruff School of Nursing.

CANDLER SCHOOL OF THEOLOGY

Established 1914

Total Living Alumni 7,029

Historical Dates

1914 – In the aftermath of a court case severing the relationship of Vanderbilt University and the Methodist Episcopal Church, South, the church decides to found a university east of the Mississippi River. The church's educational commissioners choose Atlanta for the university and name Bishop Warren Candler chancellor. The School of Theology opens at Wesley Memorial Church in September.

1915 – The School is named the Candler School of Theology in honor of Bishop Candler.

1916 – The School reopens on the Druid Hills campus in the building now housing the Pitts Theology Library.

1922 – Theology faculty vote to begin admitting women.

1946 – Candler becomes the largest Methodist seminary in the country.

1956 – Collaborating with the Emory College Department of Religion, the School forms the Graduate Division of Religion.

1957 – Bishops Hall is dedicated.

1975 – The University purchases the 220,000-volume collection of the Hartford Seminary, making Pitts Library the second-largest theology library in the country.

1981 – The William R. Cannon Chapel and Religious Center is consecrated.

1984 – The Aquinas Center is founded.

2001 – 500,000th accession to the Pitts Library and 20th anniversary of Cannon Chapel are celebrated.

Programs Offered

The School of Theology offers programs leading to Doctor of Theology, Master of Divinity, Master of Theological Studies, and Master of Theology degrees, and provides continuing education opportunities for clergy, church professionals, and laypersons. Degree programs associated with the work of the School of Theology include joint degree programs with the Goizueta Business School, the School of Law and the Graduate School of Arts & Sciences (the Master of Sacred Music degree).

The programs with the largest enrollment are the Master of Divinity and the Master of Theological Studies.

GOIZUETA BUSINESS SCHOOL

Established 1919

Total Living Alumni 12,687

Historical Dates

1919 – The School of Business Administration is founded.

1949 – The School is accredited by the American Assembly of Collegiate Schools of Business (AACSB).

1956 – First MBA is awarded.

1980 – First Executive MBA degree is conferred.

1994 – The School changes its name to the Goizueta Business School, named after Roberto C. Goizueta, then CEO of Coca Cola.

1997 – The new building for the Roberto C. Goizueta Business School opens.

2000 – Student enrollment doubles over a 10-year period.

2002 – The new PhD program enrolls its first students.

2005 – The Goizueta Foundation Center for Research and Doctoral Education, home to Goizueta's PhD program and research centers, opens.

Programs Offered

The School offers seven degree programs: a full-time MBA, a 12-month MBA, an Evening MBA, two versions of an Executive MBA (weekend and modular), a BBA, and a PhD; together with a set of innovative non-degree executive education programs.

SCHOOL OF MEDICINE

Established 1854

Total Living Alumni 13,606*

Historical Dates

1854 – The Atlanta Medical College, the forerunner of Emory University’s School of Medicine, is founded.

1917 – The School of Medicine is accepted as a member of the Association of American Medical Colleges (AAMC).

1929 – Evangeline Papageorge, Professor of Biochemistry, becomes the first woman appointed to the full-time medical faculty. She would later become the school’s first female administrator when she was appointed assistant dean in 1956.

1940 – Crawford W. Long Hospital is deeded to the University.

1943 – Elizabeth Gambrell becomes the first woman admitted to Emory’s School of Medicine.

1953 – The Emory Clinic is organized to enable medical faculty to support teaching and research in the School of Medicine with income from the clinic.

1985 – Emory’s transplant team performs Atlanta’s first heart transplant.

1990 – The O. Wayne Rollins Research Center, a \$40 million biomedical research center, is dedicated.

1996 – The Robert W. Woodruff Foundation, the Joseph B. Whitehead Foundation, and the Lettie Pate Evans Foundation establish the Robert W. Woodruff Health Sciences Fund, which provides at least \$3 million per year to the Woodruff Health Sciences Center.

* Total includes Residents and Allied Health alumni

2002 – The Whitehead Biomedical Research Building opens.

2003 – The Winship Cancer Institute Building opens.

2004 – The Pediatrics Building opens.

Programs Offered

The School of Medicine offers an MD program, an MD/MPH program in conjunction with the Rollins School of Public Health, several joint MD/PhD programs including one with Georgia Tech, 77 ACGME accredited Residency programs, and 26 departments have Postdoctoral Fellowship programs. The Allied Health Program offers a doctoral degree in Physical Therapy, three Master’s of Medical Science Degree programs, a Bachelor of Medical Science degree, and an Associate in Radiologic Technology.

NELL HODGSON WOODRUFF SCHOOL OF NURSING

NURSING

Established 1905

Total Living Alumni 5,935

Historical Dates

1905 – Wesley Memorial Hospital opens in Atlanta. Its nursing program is a forerunner of the Nell Hodgson Woodruff School of Nursing.

1944 – The School begins to offer a collegiate program.

1954 – The first MSN program is established.

1963 – The first African-Americans earn degrees from the School of Nursing.

1998 – The School's programs are accredited by the Commission on Collegiate Nursing Education (CCNE).

1999 – The School begins to offer a PhD program.

2000 – The Lillian Carter Center for International Nursing is established.

2001 – The new building for the Nell Hodgson Woodruff School of Nursing is completed.

2003 – The School is ranked in top 10 percent of all nursing schools with graduate programs and 8th among private nursing schools by *US News and World Report*; the Nurse-Midwifery specialty of the MSN Program is tied for 7th place in nurse-midwifery programs in the same report.

Programs Offered

The School of Nursing offers the following programs: PhD in Nursing, Bachelor of Science in Nursing, Master of Science in Nursing, and the RN-BSN and RN-MSN programs. A dual MSN-MPH degree is also offered. There are 16 MSN concentrations. The undergraduate nursing program has the largest enrollment.

ROLLINS SCHOOL OF PUBLIC HEALTH

Established 1990

Total Living Alumni 3,847

Historical Dates

September 19, 1975 – Emory President James T. Laney and the University’s Board of Trustees approve the Master of Community Health program and degree under the School of Medicine. Constance Conrad, MD, MPH, is selected as the first director and the first cohort of 16 students is admitted.

1978 – Emory’s Community Health Program receives accreditation.

1980 – Eugene J. Gangarosa, MD, MPH, becomes Director of the Master of Community Health Program.

1983 – Emory changes its degree title from a Master of Community Health to a Master of Public Health.

1989 – The Public Health Program is elevated to Division status within the Woodruff Health Sciences Center.

September 13, 1990 – Emory’s Board of Trustees grant school status to the Division of Public Health and appoint Raymond Greenberg, MD, PhD, MPH, its founding dean.

1990 – Biostatistics Consulting Center is established to support investigators across the University and Woodruff Health Sciences Center.

1991 – The RSPH Alumni Association is founded.

1991 – Community Advisory Board is established.

1992 – The School is accredited by the Council on Education for Public Health (CEPH). The Women's and Children's Center (WCC) is founded as a focal point for training and research in maternal and child health and women's health.

1993 – In collaboration with the School of Medicine, the School establishes the Center for Injury Control.

1994 – To recognize the long-term support of the Rollins family for Emory University, the School officially becomes the Rollins School of Public Health.

December 1994 – The School moves into its new home, the Grace Crum Rollins Building.

1995 – James W. Curran, MD, MPH, is named dean.

1996 – The RSPH Dean's Council is established to replace the Community Advisory Board. In collaboration with the Graduate School of Arts and Sciences and Emory College, the Center for Health, Culture, and Society (CHCS) is founded. The CHCS encourages interdisciplinary and comparative approaches to public health problems.

1998 – Emory gains designation as a National Institutes of Health Center for AIDS Research (CFAR). The Center supports investigations in HIV/AIDS research across the University.

2000 – The School initiates the Career MPH Program for experienced health professionals through two on-campus sessions per semester with intervening Web-based instruction. The School graduates its 2,000th student as it celebrates its 25th anniversary as a program at Emory.

2001 – The Center on Health Outcomes and Quality (CHOQ) is established. Incorporating a former unit of Aetna, the CHOQ produces research-based knowledge and methods to help health plans, physicians, and hospitals enhance the quality and cost-effectiveness of patient care.

PUBLIC HEALTH

2001 – With support from the American Cancer Society, Legacy Foundation and Robert Wood Johnson Foundation, the School establishes the Tobacco Technical Assistance Consortium to assist organizations in states across the country in building and growing highly effective tobacco control programs.

2002 – With a gift from O.Wayne Rollins Family Foundation, the Center for Public Health Preparedness and Research (CPHPR) is established. The Center provides training and research opportunities to students and faculty that would improve the public health capacity to prevent and to respond to emerging infectious disease threats, including the threat of bioterrorism.

2002 –The Center for Global Safe Water is established as a partnership among Emory University, CARE USA, the CDC and Population Services International. Its mission is to improve access to safe drinking water globally through applied research, evaluation and training activities.

2003 – Center for Throughput Experimentation, Design and Analysis is established to assist Emory researchers actively engaged in data-intensive investigations resulting from Micro-Array experiments.

2003 – The School graduates its 3,000th student.

2004 – The Center for Infectious Disease Analysis is formed to develop quantitative methods for design and analysis in studies of infectious diseases.

2004 – The Center for Public Health Communication is established to advance public health by providing leadership, expertise and innovation to research, training and practice in public health communication.

2004 – Emory is awarded funding from the CDC to establish a Prevention Research Center focused on cancer. Its community partner is the Southwest Georgia Cancer Coalition, representing 22 rural counties in Southwest Georgia.

Programs Offered

The School of Public Health offers two master degree programs (Master of Public Health, Master of Science in Public Health) and four dual degree programs (MBA-MPH, MD-MPH, MSN-MPH, and JD-MPH). In addition, the School offers an MPH via distance education, a 5-year BA/MSPH with Emory College, and a Masters of Science in Clinical Research in conjunction with the School of Medicine. Continuing education programs in a variety of disciplines are offered throughout the year.

The School offers through the Graduate School of Arts and Sciences doctoral programs in Epidemiology, Biostatistics, Behavioral Sciences and Health Education, Health Policy and Health Services Research and collaborates in offering a doctoral degree in Nutritional Health Sciences.

YERKES NATIONAL PRIMATE RESEARCH CENTER

Established 1930

Historical Dates

YERKES

1930 – Yale psychobiologist Robert M. Yerkes, PhD, founded the Yale Anthropoid Experiment Station, later known as the Yale Laboratories of Primate Biology. Following Yerkes' retirement, the center was renamed in his honor.

1956 – Yale University transferred ownership of the Yerkes Laboratory of Primate Biology to Emory University.

1960 – Congress passed legislation creating the National Institutes of Health's Regional Primate Research Centers program to provide the scientific community with specialized resources needed for primate research. The next year, Emory and six other research universities were selected as sites for the regional primate research centers.

1965 – Federal funding enabled Emory to construct primate housing, lab and support facilities on its main campus and at a satellite location in Lawrenceville, Georgia. This same year, the Yerkes Research Center moved to Atlanta and has served ever since as a focal point for crossdisciplinary collaboration in research both within Emory and with affiliated scientists at other institutions across the country and the world.

1999 – The Yerkes facility was expanded to accommodate the newly established Emory Vaccine Center, to facilitate vaccine development and research in AIDS, malaria, anthrax, hepatitis C and other diseases. This same year, the Yerkes Research Center became the first home for the newly formed Center for Behavioral Neuroscience (CBN), which provides resources to foster innovative research on the basic neurobiology of complex social behaviors associated with fear, aggression, affiliation and reproduction.

2001 – The DNA vaccine microbiologist Harriet Robinson, PhD, developed what was shown to prevent development of AIDS in monkeys infected with a highly virulent form of HIV. Today, this

vaccine is in clinical trials in humans. This same year, memory expert Stuart Zola, PhD, came to Emory from UC-San Diego to become director of the Yerkes Research Center.

2002 – The NIH designated the Yerkes Research Center and seven other primate research centers as national primate research centers in recognition of their involvement with and impact on research programs throughout this country and the world.

2003 – The Yerkes Research Center became a critical component of the Southeastern Regional Center of Excellence for Emerging Infections and Biodefense, a federally funded initiative to develop new vaccines, drugs and diagnostic tests against emerging infections and to defend against organisms that might be used in bioterrorist attacks.

2004 – The Yerkes Research Center opened a new 92,000-square-foot neuroscience research building with state-of-the-art lab and imaging facilities currently used by scientists throughout the university.

2005-06 – The Yerkes Research Center celebrates its 75th anniversary of advancing science and improving health.

Research Programs

For more than seven decades, the Yerkes National Primate Research Center of Emory University has been dedicated to advancing scientific understanding of primate biology, behavior, veterinary care and conservation, and to improving human health and well-being. Today, the center, as one of only eight National Institutes of Health–funded national primate research centers, provides specialized scientific resources, expertise and training opportunities. Recognized as a multidisciplinary research institute, the Yerkes Research Center is making landmark discoveries in the fields of microbiology and immunology, neuroscience, psychobiology and sensory-motor systems. Research programs are seeking ways to: develop vaccines for infectious and noninfectious diseases, such as AIDS, malaria and Alzheimer’s disease; treat cocaine addiction; interpret brain activity through imaging; increase understanding of progressive illnesses such as Parkinson’s and Alzheimer’s; unlock the secrets of memory; determine behavioral effects of hormone replacement therapy; address vision disorders; and advance knowledge about the evolutionary links between biology and behavior.

UNIVERSITY LIBRARIES

There are five libraries at Emory: Health Sciences Library, Law Library, Oxford College Library, Theology Library, and the Woodruff (main) Library, which also includes the Candler, Chemistry, Business, and Music and Media Libraries, and the Mathematics and Science Center Reading Room.

Historical Dates

1897 – Construction of (Warren Akin) Candler Library, first separate library on original campus at Oxford, Georgia.

1911 – Purchase of first significant collection of rare books and manuscripts, a collection of books and papers associated with John Wesley and his family.

1926 – Opening of (Asa Griggs) Candler Library, first separate library on new Atlanta campus.

1969 – Opening of the Robert W. Woodruff Library, the first library building at Emory since 1926, providing capacity for more than a million volumes.

1972 – One-millionth volume is added to the University's libraries.

1975 – Purchase of the 220,000-volume collection of the Hartford Seminary makes Pitts Theology Library the second-largest theology library in the country.

1975 – Beginning of automated cataloging for Emory libraries with advent of OCLC and SOLINET.

1976 – Pitts Theology Library expands into renovated space, occupying the entire original Theology Building.

1979 – Acquisition of the W.B. Yeats collection, Woodruff Library's first step in building world-class poetry and modern literary archives.

1987 – Two-millionth volume is added to the University's library holdings.

1987 – Creation of the Health Sciences Library, bringing together medical and dental libraries in a new location.

1987 – Debut of DOBIS, Emory libraries first automated integrated library system.

1994 – Launch of Virtual Library Project, marking the beginning of Emory libraries' digital projects and programs.

1995 – Opening of the Hugh F. MacMillan Law Library.

1995 – Conversion of integrated library system from DOBIS to EUCLID.

1997 – Appointment of Woodruff Library's first African-American bibliographer, recognizing the Library's distinctive and growing archival and special collections in African-American culture.

1998 – Dedication of the Center for Library and Information Resources, a major addition to the Woodruff Library.

2001 – Dedication of the Marian K. Heilbrun Music and Media Library on Level 4 of the Center for Library and Information Resources.

2002 – Opening of the Mathematics and Science Center Library.

2003 – Reopening and dedication of the renovated Asa G. Candler Library, featuring the newly restored William L. Matheson Reading Room.

2004 – Acquisition of the Raymond Danowski Poetry Library, the largest collection of modern English-language poetry ever assembled by a private collector (some 70,000 volumes).

ACADEMIC and ADMINISTRATIVE INFORMATION TECHNOLOGY

Academic and Administrative Information Technology (AAIT) delivers information technology (IT) services to Emory's academic, administrative and research communities. Services include e-mail; academic systems for interactive learning and community discussion; administrative systems for finance, human resources and student services; technology-enriched classrooms, centers and labs; information security; a call center; and 24/7 enterprise data center operations.

Computing Centers

Emory's Center for Interactive Teaching (ECIT) was established in 1996 to provide Emory faculty with expertise, training, and technical support in applied instructional technologies. ECIT is equipped with 104 PC and Macintosh desktops for use by faculty, staff, and students, including multimedia production and digital course content. It also supports three technology-enriched classrooms and a collaborative work area known as the Teaching Theatre, where faculty and graduate students can meet for consultation, technology review, and informal discussion.

AAIT

The 11,070-square-foot Computing Center at Cox Hall, open 6 days a week, is equipped with 44 Macintosh and Dell workstations, 55 laptops, scanners, multimedia and digital video production technologies, wireless computing access, and two technology-enriched classrooms. Group collaborative spaces feature plasma displays with touch screen controls and expanded-image viewing. Whiteboards allow image capture for saving and digitizing work sessions. The oval conference room seats nine and serves as a location for meetings, small classes, and collaborative project planning.

Selected Statistics for Services 2005-06

Eagle E-mail:

Over 111,510 Eagle e-mail and 60,000 Microsoft Exchange e-mail messages were delivered daily.

Academic Technologies

There were 35,000 LearnLink conferences for over 17,000 users who average over 340,000 messages sent and received per day. The Blackboard Course Conferencing system averaged 122,377 hits per day and supported 1,197 fall 2006 online courses.

Classroom Technologies supported and maintained 198 classrooms, which include 110 technology-enhanced SMART classrooms for Emory College; and filled 89,346 requests for classroom audiovisual equipment.

Computing Centers

ECIT trained 535 faculty and staff, 700 students; conducted 115 classes/workshops. The Computing Center at Cox Hall averaged 15,927 entrances per month, supported 28 formal classes, and hosted 720 study groups, student organization meetings, and collaborative work sessions.

IT HelpDesk

The IT HelpDesk handled 46,275 support requests by telephone (404-727-7777) and 4,964 IT Support Requests (<http://www.help.emory.edu>) for computing support from faculty, staff, and students.

Operational Services

Data Center servers maintained up to 99.3 percent uptime, 24 hours a day, 7 days a week.
