Room and board is defined as double occupancy and 19 meals per week or the maximum meal plan. Required fees include only charges that all full-time students must pay that are not included in tuition (e.g., registration, health, or activity fees.) Do not include optional fees (e.g., parking, laboratory use).

Emory Advantage is Emory University's financial aid initiative to help students from families with total annual incomes of \$100,000 or less who demonstrate need for financial aid. The Loan Replacement Grant (LRG) replaces loans for dependent undergraduate students whose families' annual total incomes are \$50,000 or less. Grants replace need-based loans. The eligible grant amount represents the student's self-help portion normally given in the form of a loan. The LRG is available to eligible incoming and continuing undergraduate students starting in the 2007-2008 academic year. The Loan Cap Program caps cumulative need-based debt at \$15,000 for dependent undergraduate students whose families' annual total incomes are between \$50,000 and \$100,000. With the Loan Cap Program, students receive a standard financial aid award for freshman and sophomore years. This estimated award could include federal or state aid, institutional loans or grants, or Work-Study. After a student has accrued a total of \$15,000 in need-based loans from Emory, grants will be provided to cover any remaining need-based funding incurred through degree completion. The LCP is available to eligible incoming students starting in the 2007-2008 academic year.

**I2 Student to Faculty Ratio**

Report the Fall 2008 ratio of full-time equivalent students (full-time plus 1/3 part time) to full-time equivalent instructional faculty (full time plus 1/3 part time). In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate-level students. Do not count undergraduate or graduate student teaching assistants as faculty.

I2	Fall 2008 Student to Faculty ratio	7 to 1	(based on	6834	students
			and	952	faculty).

**I3 Undergraduate Class Size**

In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2008 term.

**Class Sections:** A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

**Class Subsections:** A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of class sections and class subsections offered in Fall 2008. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the "100+" column in the class section column and 40 times under the "20-29" column of the class subsections table.

**J. DEGREES CONFERRED****J1 Degrees conferred between July 1, 2007 and June 30, 2008**

J1 For each of the following discipline areas, provide the percentage of diplomas/certificates, associate, and bachelor's degrees awarded. To determine the percentage, use majors, not headcount (e.g., students with one degree but a double major will be represented twice). Calculate the percentage from your institution's IPEDS Completions by using the sum of 1st and 2nd majors for each CIP code as the numerator and the sum of the Grand Total by 1st Majors and the Grand Total by 2nd major as the denominator. If you prefer, you can compute the percentages using 1st majors only.
