Ex-Officio Members

Bill Collier, Parking and Community Services  
Robert Hascall, Vice President, Campus Services  
Mike Poole, Emory Police Department  
Phil Sauerbrun, Parking and Community Services  
Adele Clements, Transportation and Parking

This past year has been one of redefining our responsibilities, as stated in our goal:

“to set a new course for the Transportation and Parking Committee to better meet the changing needs of the University”

To that end, several of us met with Mr. Bob Hascall to discuss our committee's position in regards to the many changes within the Transportation and Parking area of the University. He then came to one of our meetings to further discuss what we might do as a Committee and offered insight on areas where we could be of assistance.

Mr. Mike Mandl attended a later meeting where we further discussed this matter and a process was agreed to. He will attend the first Fall meeting and we will provide one or two priorities that we feel should be addressed by the University during that year. In addition, Mr. Mandl will attend the last meeting of the year to present and review the progress made.

Based on these discussions, we formed a committee to review and revise the By-Laws. After many discussions, changes, etc., the new By-Laws were approved in March.

The Transportation and Parking Committee has also been asked to send representatives to participate in the interview and selection process for Mr. Bill Collier's replacement. Mr. Collier, current Director of Parking and Community Services, has unfortunately decided to retire next month.

At our last meeting of the year, Mr. Mandl, Mr. Hascall and Mr. Peter Barnes attended. We discussed some possible goals for the coming year and they offered suggestions and advice. After they left, the Committee spent a considerable amount of time discussing goals and objectives for the coming year. We have formed three sub-committees to address the following three issues:

- Alternate Transportation
- Rules and Regulations
- Education and Information

Once these committees are formed, each will meet throughout the summer to formulate action plans. The Transportation and Parking Committee will also meet twice during the summer. By being proactive, we believe we can better serve our goals and the University.

We will continue to seek the advice of University Administration on how to best achieve our goals and, at the same time, be of service to the University.

Respectfully submitted,

Linda King  
Chair  
Transportation and Parking Committee
