Emory University is an inquiry-driven, ethically engaged, and diverse community whose members work collaboratively for positive transformation in the world through courageous leadership in teaching, research, scholarship, health care, and social action. The University is recognized internationally for its outstanding liberal arts college, superb professional schools, and one of the leading health care systems in the Southeast.

Emory is enriched by the legacy and energy of Atlanta, whose downtown area is just 15 minutes away. Through collaboration among its schools, units, and centers, as well as with affiliated institutions such as The Carter Center and the U.S. Centers for Disease Control and Prevention (CDC), Emory is committed to working for positive transformation in the world.

Emory’s future is being guided by an ambitious strategic plan, “Where Courageous Inquiry Leads.” Within this plan, the University has committed its unique combination of resources to address some of the world’s toughest challenges and greatest opportunities—from religion, conflict and peace building, to race and social difference, to issues of global health and new understandings of what makes us human. Implementation of Emory’s strategic plan will transform its campus and positively influence local and global communities.

One of Emory’s most compelling features is its location in the vibrant, international city of Atlanta. The University’s campus master plan outlines a bold vision for campus development, while retaining its distinctive sense of place and a commitment to sustainability. This commitment is evident through the Clifton Community Partnership, which provides a framework for building and enhancing a vibrant living-learning-working environment in and around Emory’s Druid Hills campus. In recognition of its connection to the community, Emory was one of sixty schools in the nation recognized as an “Engaged Institution” by the Carnegie Foundation for the Advancement of Teaching.

Emory maintains an uncommon balance: it generates more research funding than any other university in Georgia, while maintaining a rich tradition of outstanding teaching.

**Emory College (1836*)**

Emory College distinctively combines the student-centered education and personal engagement of the best liberal arts colleges with the unparalleled resources of a major research university. With a student/faculty ratio of 9:1, the college offers 70 majors, 18 joint concentrations, and 15 interdepartmental programs. The college had 15,366 applicants for the 2007 first-year class, which numbered 1,241. Students enjoy a vibrant campus life, selecting from an array of arts, civic, and preprofessional student organizations. More than one quarter of the Emory College student body participates in Volunteer Emory, which provides services to Atlanta-area communities.

**Oxford College (1836*)**

Oxford College, a specialized division of Emory University that provides a liberal arts-intensive program for the first two years of a baccalaureate degree, has a student body of around 700 and is located thirty-eight miles east of Atlanta on the site of the original Emory campus in Oxford, Georgia. It is one of four undergraduate options at Emory. Students choose to attend Oxford because of its emphasis on teaching, personal interaction with professors, community setting, student diversity, leadership opportunities, and connection to Emory University. Each year, about 90 percent of Oxford graduates choose to continue on
automatically to Emory College on the Atlanta campus or transfer into Emory’s Goizueta Business School or Nell Hodgson Woodruff School of Nursing.

School of Medicine (1854*)
One of the nation’s finest teaching and research institutions, the medical school has 43 applications for each of its first-year positions. The school has 480 medical students, including 14 MD/MPH students, and shares 66 MD/PhD and two MD/MBA students with Emory’s graduate schools. The medical school also trains more than 1,000 residents and fellows and has 418 students in five top-ranking allied health programs. Faculty in basic science and clinical departments total 2,053. In 2007 the medical school received $301.3 million in research funding, including $36.5 million in funds received by medical faculty based at Yerkes National Primate Research Center. The school is known for its research programs in cancer, neuroscience, vaccine development, transplantation biology, cardiology, biomedical engineering, and genetics. Faculty clinicians in Emory’s own or affiliated teaching hospitals are responsible for more than 3.6 million patient visits annually.

Nell Hodgson Woodruff School of Nursing (1905*)
The Nell Hodgson Woodruff School of Nursing has 207 baccalaureate, 194 master’s, and 12 doctoral students. Bachelor’s degree graduates go on to become national and international leaders in patient care, public health, government, and education. Master’s graduates are qualified to seek certification as nurse practitioners, nurse midwives, and/or clinical nurse specialists. The doctoral program focuses on clinical research, with emphasis on health policy, health outcomes, and ethics. In 2007 the nursing school received $3.26 million in research funding. Nationally the school ranks in the top 10 among private nursing schools.

for research funding from the NIH. U.S. News & World Report ranked the nursing school 26th overall and also ranked its nurse midwifery graduate program eighth in the nation. The School of Nursing has 54 faculty, and students can learn from volunteer faculty at some 300 clinical sites. The school has approximately 10,000 graduates.

Candler School of Theology (1914*)
Strong educational programs, a superb fifty-one-member faculty with an impressive record of research and publication, and a diverse student body of 530 from more than 50 denominations make Candler stand out among seminaries. Pitts Theology Library is the second-largest theological library in North America, with more than 540,000 volumes. Candler’s 7,300 living alumni serve in leadership positions around the world. One of thirteen United Methodist-related seminaries, Candler’s mission is to educate faithful and creative leaders for the church’s ministries in the world. Candler students can pursue one of three master’s degrees and one doctoral degree. The innovative Master of Divinity Program gives students a broad and contextualized theological education, while requiring students to do concentrated work within a particular area of study. Joint degree programs in law and business further provide an extraordinary context for theological education.

School of Law (1916*)
Emory School of Law is nationally and internationally recognized for its commitment to the legal profession as a service profession, for its emphasis on teaching the practice of law as well as the study of law, and for its premier centers of excellence. Emory Law celebrates its intellectual life, while reflecting the essential role of service by providing opportunities for students to work in the public sector or in private nonprofits, a loan repayment assistance program and scholarship assistance, and instruction in the practice of law through outstanding clinical programs. Emory Law inspires and supports interdisciplinary, integrative, and international centers of excellence that include Law and Religion, International and Comparative Law, Feminist Jurisprudence, Legal Theory, and Transactional Law.

Roberto C. Goizueta Business School (1919*)
Goizueta Business School teaches students to become principled leaders for global enterprise who not only create value for their organizations but also improve society. The school is home to an undergraduate degree program, a full-time (two-year) MBA, a one-year MBA, an evening MBA, the W. Cliff Oxford Executive MBA (weekend and modular formats), a PhD program, and a portfolio of
innovative nondegree executive development programs. The school’s Executive MBA Program and Undergraduate (BBA) Program are consistently ranked in the top 10 among their respective programs, while the full-time and evening MBA programs are ranked in the top 25.

Graduate School (1919*)
The Graduate School awards doctoral and master’s degrees in forty programs across the humanities, social sciences, and sciences. These competitive programs prepare graduates for careers ranging from college and university teaching to policy-making, research, administration, and service in the public and private sectors. The Teaching Assistant Training and Teaching Opportunity Program, a core requirement for the PhD, prepares graduate students to balance the demands of teaching and research in a university setting. Emory’s graduate programs encourage interdisciplinary study and cross-disciplinary exchange within the context of excellent training in core disciplines. Among the graduate school’s interdisciplinary programs are the Graduate Division of Biological and Biomedical Sciences, the Graduate Institute of the Liberal Arts, the Graduate Division of Religion, and Women’s Studies. In addition, the Graduate School offers joint degrees with the School of Law, the School of Medicine, and the Georgia Institute of Technology.

Rollins School of Public Health (1990*)
The Rollins School of Public Health has 781 master’s degree students and 121 PhD students who choose from degree options in behavioral sciences and health education, biostatistics, environmental and occupational health, epidemiology, health policy and management, and global health. Research funding recorded in 2007 totaled $54.7 million. The school offers dual degrees with medicine, nursing, allied health, business, and law as well as the distance-based career MPH degree, which allows professionals to pursue degrees while they work. The school has 180 full-time and more than 250 adjunct faculty in six academic departments and approximately 4,500 alumni. Through its collaborations with the CDC, The Carter Center, the American Cancer Society, CARE, the Arthritis Foundation, the Task Force for Child Survival and Development, and state and local public health agencies—and in its role as a center for international health research and training—the school helps make Atlanta a worldwide destination for public health. The Rollins School of Public Health is ranked seventh among its peer institutions by U.S. News & World Report.

Emory houses a chapter of Phi Beta Kappa, the nation’s oldest and most prestigious academic honor society. Emory students have received Rhodes, Marshall, Fulbright, Goldwater, Rotary, Rockefeller, Mellon, and USA Today scholarships as well as National Science Foundation Fellowships.

ATHLETICS
Emory fields eighteen varsity sports under the auspices of NCAA Division III, whose members voluntarily agree to award no athletics scholarships or preferential treatment for student-athletes. Emory has one of the top all-around athletics programs in the NCAA Division III, based on cumulative results in the NACDA Directors’ Cup standings since fall 2000 and has had more student athletes receive NCAA Postgraduate Scholarships than any other NCAA school in the past four years.

FACULTY & STAFF
Employees: 22,404** (includes approximately 3,600 faculty)
Emory is the largest employer in DeKalb County and the largest private employer in metro Atlanta.

** includes Emory University, Emory University Hospital, Crawford Long Hospital, Emory Children’s Center, Emory Healthcare Corp., The Emory Clinic, Wesley Woods Center and Wesley Woods Senior Living

ALUMNI
The mission of the Emory Alumni Association (EAA) is to strengthen relationships among alumni worldwide, provide lifelong learning and leadership opportunities, and facilitate alumni participation in the University and its mission. The EAA represents more than 100,000 alumni living in all 50 states and more than 150 nations. By keeping alumni informed and involved in the actions of the University, the EAA keeps the spirit of Emory alive within its graduates. The EAA wants alumni to feel not only a constant connection to the University, but also feel as if they never left it.
FINANCIAL DATA

- **Tuition**: $33,900 for undergraduates. Approximately 76 percent of all students receive some financial aid.

- **Operating budget**: $2.8 billion, as of August 31, 2007.

- **Endowment and trust funds**: $6.2 billion, as of August 31, 2007.

- **Sponsored research (2006–2007)**: Emory University received $383.9 million in 2007.

ACADEMIC SUPPORT

Holdings of the nine Emory University Libraries total approximately 3.2 million volumes. The libraries also provide access to thousands of electronic information resources, including more than 40,000 e-journal titles. Emory’s Manuscript, Archives and Rare Book Library (MARBL) offers rich collections in areas such as the Irish literary revival, twentieth-century American, British and Irish poetry, and African American literature, history, and culture. MARBL also is strong in research collections devoted to the social and cultural history of the American South, with a particular emphasis on Georgia and Atlanta. Digital innovations at the Robert W. Woodruff Library include the continuing creation of the Trans-Atlantic Slave Trade Database, which will provide the first solid continually updated database on this five centuries long practice. In addition, the Internet journal and scholarly forum called *Southern Spaces* (www.southernspaces.org), based in the Woodruff Library, provides a forum for multimedia scholarship on southern culture, while also facilitating innovative ways of organizing, presenting, and updating research. Pitts Theology Library, the second-largest theology library in the country, is home to the Richard C. Kessler Reformation Collection, which documents the sixteenth-century Protestant Reformation in Germany. The Kessler collection includes more than 900 publications by Martin Luther himself—more than any other U.S. library. The Woodruff Health Sciences Center Library includes branches at Grady Memorial Hospital and Emory Hospital, as well as a Housestaff/Medical Student Learning Center at Grady. Emory’s Hugh F. MacMillan Law Library is a selective depository for U.S. government documents, and is a full depository for publications of the European Union.

**University Technology Services (UTS)** serves the information technology needs of Emory’s academic, administrative, and research communities with advanced technologies such as e-mail and course conferencing; course management and calendaring software; administrative systems for financial, human resources, and student services; more than 100 technology-enriched classrooms; information security; along with help desk and twenty-four hour enterprise data center operations. UTS’s computing centers and labs include Emory’s award-winning Center for Interactive Teaching (ECIT). Collaborative work is enriched for students and faculty in the Computing Center at Cox Hall. Network Communications Services (NCS) delivers telephone, physical, and wireless data networking, paging, cable television, and radio and video services to Emory University and Emory Healthcare.

MICHAEL C. CARLOS MUSEUM

The Michael C. Carlos Museum, located at the heart of Emory’s campus, is Georgia’s premier museum devoted to the art and history of world cultures. Founded in 1919,
the museum is home to the Southeast’s most distinguished collection of art and artifacts from ancient Egypt, Greece, Rome, the Near East, Asia, Africa, and the Americas. In addition, a works on paper collection spans from the Renaissance to the present. The Carlos Museum offers an array of educational opportunities including special exhibitions, audio tours, family guides, gallery talks, children’s programs and summer camps, interactive technology, films, internships, and much more.

THE CARTER CENTER
The not-for-profit Carter Center advances peace and health in neighborhoods and nations around the world in partnership with Emory. Guided by a fundamental commitment to human rights, the center works to prevent and resolve conflicts, enhance freedom and democracy, and improve health. Center projects have helped to improve quality of life for people in more than 70 nations.

YERKES NATIONAL PRIMATE RESEARCH CENTER
For more than seven decades, the Yerkes National Primate Research Center has been dedicated to advancing scientific understanding and to improving human health and well-being. Yerkes is one of only eight National Institutes of Health-funded national primate research centers (NPRC) that provide specialized scientific resources, expertise and training opportunities.

Today, the Yerkes Research Center’s multidisciplinary research programs are leading to life-changing discoveries in microbiology, immunology, and neuroscience. Researchers at the center are seeking to develop an AIDS vaccine, increase understanding of progressive illnesses such as Alzheimer’s, treat drug addiction, address vision disorders, advance knowledge about the evolutionary links between biology and behavior, and interpret brain activity through imaging. The center is the only such research center to have onsite MRI, PET, and cyclotron facilities.

The Yerkes Research Center will continue to build upon its solid foundation of scientific advancements while offering the promise that discoveries made here will improve the health of our nation and the world.

EMORY HEALTHCARE
Emory Healthcare is the largest, most comprehensive health care system in Georgia and comprises the following components: Emory University Hospital, Emory Crawford Long Hospital, Emory University Hospital Northlake, Wesley Woods Center, The Emory Clinic (the largest, most comprehensive group practice in Georgia, with approximately 900 Emory faculty physicians and health centers throughout metro Atlanta), and the Emory Children’s Center (the state’s largest pediatric multispecialty group practice with 194 physicians). In addition, Emory Healthcare has joint ventures with HCA (Emory Johns Creek Hospital, which opened in 2007 in North Fulton County, and Emory Eastside Medical Center) and with Adventist Health System (Emory-Adventist Hospital). Emory Healthcare’s total portfolio of inpatient operations includes more than 1,500 licensed beds. Emory Healthcare also has hospital and physician affiliates throughout Georgia, Alabama, North Carolina, and South Carolina. Emory has long-standing relationships in patient care, teaching, and research with Grady Memorial Hospital, the Atlanta Veterans Affairs Medical Center, and Children’s Healthcare of Atlanta as well.
