The Muslim Brotherhood has achieved a level of influence nearly unimaginable just a year or two ago. With the victory of Muhammad Morsi as Egypt’s first democratically elected president, the Brotherhood is poised to assume a leading role in shaping the country’s future. What does the Brotherhood want, how does it operate, and where is it headed? Carrie Rosefsky Wickham, Associate Professor of Political Science, will highlight key features of the Brotherhood’s evolution, based on multiple research trips to Egypt as well as her experience as an election witness during the presidential run-off in June 2012.
