---

Dear Members of the Emeritus College,

I had a wonderful time at the Sheth Lecture and I hope you enjoyed it if you were able to attend. If not, I hope to be posting audio from that on our website sometime in the near future. Also, Marilynne McKay just gave us a talk today about operant conditioning; if you're interested but were unable to attend, I can send you the handout she used if you send me an email.

We have a few upcoming events, but things will be a little bit quieter for the next couple of weeks. Let me know if you have any announcements you'd like to share! I have included some below that you might find of interest. Please let me know if you'd be interested in attending and/or helping out with the Retirement Seminar May 6th. It would be wonderful to have you (and your expertise)!
