E-mail: charity.crabtree@emory.edu

EMORY

Breakfast Discussion July 2009

New Time & Location!*

Donald McCormick, Biochemistry "Vitamins and Trace Elements"

Dr. McCormick is F. E. Callaway Professor Emeritus and former Chairman of Biochemistry and Executive Dean for Sciences in the School of Medicine. He is the co-editor of the "Handbook of Vitamins" and in 1999, he was recognized by his peers with a symposium in honor of his distinguished career. At that time, he had over 500 publications and his peers described him as one of the world's experts on vitamins and minerals. Please join him for this informative and important talk about Vitamins and Trace Elements! Topics will include:

- What are micronutrients (vitamins and trace elements)?
- How do micronutrients function in our bodies?
- What are our needs and excesses of these micronutrients?

We hope you can join us!

***The MARIAL conference room is room 415E on the 4th
Floor of Building A on the Briarcliff Campus (near our
new offices).**
