**CARL HUG**  
**SOM: Anesthesiology**  
**Health Care Decisions**  
**Near the end of life**

Questions we will consider during this discussion:

- What is your understanding of end-of-life options?
- What are your specific goals for treatment?
- Would a high-risk treatment trial be acceptable to you?
- What disabilities do you wish to avoid?
- Have you communicated your wishes to your surrogate decision-maker and family?
