VISITOR PROCESS

Any visitors on campus must satisfy these basic conditions:

#1
Any visitor must have a sponsor, a formally designated Emory university contact.

#2
Any visitor will sign virtually or in person a compact that elaborates the requirements and expectations for being on campus, including:

- The requirement for facial coverings and physical distancing at all times;
- Prohibition of being on campus if they have tested positive for the COVID-19 virus within the past 10 days, are exhibiting signs or symptoms of illness of COVID-19, or were in close proximity to someone confirmed to have virus causing COVID-19 within the last 14 days, with exceptions noted for human subjects in COVID-related research; and physical distancing at all times;
- Expectation that the visitor will contact the designated Emory sponsor if the visitor tests positive for the COVID-19 virus or exhibits any signs of illness of COVID-19 within forty-eight hours after they depart campus, triggering Emory’s internal notification and contact tracing procedures.

#3
Where feasible, the visitor should provide contact tracing information for their time on Emory’s campus to allow Emory’s internal contact tracing program to operate. In this instance, “contact tracing information” refers to the names of Emory faculty, staff and students with whom the visitor was in close contact while on campus (defined as being within six feet for more than 15 minutes over a 24 hour period).
