

IF FACULTY/STAFF LEARN THAT A STUDENT IS SICK

Undergraduate
Student

Graduate
Student

Professional
Student

Tell the student they must notify Emory Student Health through the Student Health Portal.

Submit a Student of Concern Form and **check Yes** to the option that says: Students in Isolation/Quarantine.

This routes the form to your school's academic liaison(s) who will follow up with the student directly.

Respect student confidentiality for those in isolation/quarantine.

What if someone around me tests positive? What you find out and when will depend on your interactions with the person who is ill. For more information on **Right to Know, Need to Know, and Want to Know**, visit Emory Forward.
