

DISINFECTING WORKSPACES

Emory University | Environmental Health and Safety Office

HOW DO I DISINFECT

SANITIZER

Take a couple of paper towels and pump sanitizer on them or use pre-moistened disinfecting wipes.

WORKSPACE

Wipe down high-touch and main surfaces at your workstation.

30 SECONDS

Let surfaces air dry for 30 seconds.

COMPOST BIN

Dispose of used paper towels in a designated compost bin.

WORK

Begin your workday. Remember to disinfect frequently throughout your shift and before you leave for the day.
